BRITISH LOSSES IN WAR 258,009 TO END OF MAY

LONDON, June 9 .- Premier Asquith

and missing.

FINANCIAL TO THE PUBLIC!

In advising the purchase of Capital Traction Stock 1 have been mindful of the conservative elements which comprise a good investment. The actual value of the property; its earning value; its past record and prospective possibilities; its standard excellence of upkeep, equipment and service; and the capability and honesty of its management. I would not suggest to the public an investment of undue hazard, nor would I sacrifice safety and security for the tempting attraction of speculative dividends. The conservation of principal is the first essential to prudent investments.

I submit herewith deductions from the sworn published statements made by our three leading local public utility corporations for the year 1914:

In accordance with its annual statement to Congress, the Washing ton Railway and Electric Company did not earn its dividends for the year 1914 by \$47,147.01.

Deficit for the year 1914 after paying dividends......\$47,147.01

The Safest Investments Are those that do not fluctuate during dis-turbed conditions of the money or stock market. First deed of trust notes (first mortgages), well secured on real estate in the District of Columbis, constitute "gilt edge" investments. They do not depend spon the financial responsibility of indi-viduals or corporations for their stability and are exempt from taxation as personal property. We can supply such invest-ments to amounts from \$500 upward. Send for booklet, "Concerning Loaus and In-vestments."
